-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on October 31, 2007 has been entered.

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-3, 6 and 8-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Axelrod et al in view of Wang. Axelrod et al is described in paragraph no. 5, Paper No. 072104. Wang is applied as set forth in paragraph no. 3, Paper No. 063005 (mail date of July 12, 2005).

4. Claim 4 is rejected under 35 U.S.C. 103(a) as being unpatentable over Axelrod et al in view of Wang as applied to claims 1-3, 6 and 8-20 above, and further in view of Gluck et al as set forth in paragraph no. 6, Paper No. 072104.

5. Applicant's arguments filed October 15, 2007 and the accompanying 132 declaration have been fully considered but they are not persuasive. Applicant's contentions with regard to particle size are based upon mere conclusion without supporting factual evidence of record. How does Wang teach away from applicant's claimed particle size, as applicant asserts on page 8 of the remarks? Where is it

disclosed that the powder known in the art refers to a particle size substantially smaller than 300 microns, as applicant alleges on page 8 of the remarks?

6. The declaration is also based upon conclusions unsupported by factual evidence. Such conclusions appear in paragraph nos. 8, 9, 11 and 12 of said declaration. Where is the Experimental Test data discussed in said paragraph no. 8? Further, there is no evidence to indicate that the sales of applicant's product are attributed to the claimed particle size as opposed to advertising of the product.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Arthur L. Corbin whose telephone number is (571) 272-1399. The examiner can normally be reached on Monday-Friday from 10:30 AM to 8:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Milton I. Cano, can be reached on (571) 272-1398. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
